

USB Rechargeable LED Sensor Light

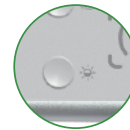

PARAMETER

Application	Residential
Working Time	30000
LED Chip	/
Length	200/400/600 mm
Warranty	1 Year
Battery	800/2000mAh
Lamp Luminous Efficiency(lm)	100
Color Temperature(CCT)	3000K Warm White+5000K Cold White
Product Weight	300G
Install Style	Magnetic attraction
Input Voltage(V)	5V1A
Switch Type	motion sense
Color Rendering Index(Ra)	80
Shade Direction	UP
Material	PC+Aluminum
Light Source	LED
Power	0.8W/1.8W/2.8W
Radar Sensitivity	Radar and light sensor
Sensing Distance	3M
IP Grade	IP20
Charging Method	Type C USB Cable
Sensing Angle	120°

DETAILS

1 Iron

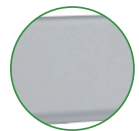

2 CCT & Brightness switch button

3 Radar and light sensor

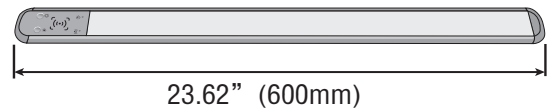

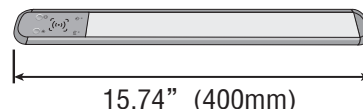

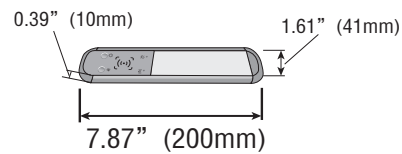

4 On/Off & Function button

5 Shell Material PC+Aluminum
(Shell Color Can Be Customized)
